

About INNOLIFT

INNOLIFT is an innovative, self-lifting pallet and freight loader that lifts its load *and itself* into and out of virtually every delivery vehicle. **INNOLIFT** reduces workplace injuries and employee turnover and improves delivery efficiencies. It can be operated by anyone, expanding your potential delivery workforce. **INNOLIFT** is manufactured by Frennix OY in Finland to the highest European quality standards.

A BREAKTHROUGH IN VEHICLE LOADING TECHNOLOGY

CAPABILITIES

- Lifts pallets/freight *and itself* into and out of the delivery vehicle
- Rides with the load; a mobile liftgate and pallet jack in one machine
- Powered by a 12 Volt / 44 Amp rechargeable battery
- Lifting capacity up to 1325 lbs.
- Handles all pallet types (open and closed bottom)

BENEFITS

- Turns two-person jobs into one; expands potential delivery workforce
- Increases delivery efficiencies and sales
- Reduces employee fatigue, workplace injuries and employee turnover
- Designed for virtually all vehicle types, including Mercedes (Sprinter), Ford (Transit), Ram (ProMaster), Nissan (NV) and Chevrolet delivery and cargo vans, as well as, cube/box trucks/semi trucks/some minivans
- Replaces liftgates and ramps; or use in conjunction with your liftgate
