

Tire STORAGE

All You Need for Your Tire Storage

FRENDIX®

Unique Tire Storage Solutions

Over 20 years of experience with tire storages enable us to offer custom-build and highly perfected solutions.

- ✓ Safe
- ✓ Fast
- ✓ Without manual handling
- ✓ Flexible
- ✓ Compatibility with Frenix TireStorage products

Effective Solutions

We always offer the most viable storing solutions according to the needs of the customer.

Our solutions give speed, efficiency and operational reliability for your storing needs.

Our operations

- 1) Determining the requirements for the tire storage
- 2) Selection of tire racks
- 3) Selection of tire stackers and tire accessories
- 4) Setting up TireManager - a tire warehouse management software

Versatile Racks

Best Return

Get the most out of your storage space cost effectively.

Use TireManager to place your tires optimally.

Safe

All storage elements are CE approved.

Handle your tires quickly and safely without any need to touch them by hand.

Compatible

All Frendix elements are adaptable and fit perfectly together.

Fixed racks.

Manually movable racks.

Automatic Logic-Controlled Tire Storage with Movable Racking System

From the touch screen you can control the racks and read information about them. Use the gathered information about the racks to anticipate maintenance work.

Efficient

Increase productivity of your storage by storing more tires in the same space.

The electrical system enables longer and higher racks.

Effortless

The selected rack aisle opens automatically at the right place.

The electrical system reduces manual work and working hours.

Safe

The predetermined acceleration and braking paces for the racks ensure that the tires never fall off.

A light curtain and an emergency stop switch prevent accidents.

Racks for Every Need

	Options	Layout	Description
Fixed Racks	Tire set racks	4 tires horizontally stacked	Without manual handling of tire sets, quickly and safely
	Vertical racks	Tires vertically next to each other	Affordable investment for new tires
